WORK EXPERIENCE

FreeLancer Self-Employed

11/2022 - Present

Edmonton, Alberta

I am a Web Developer, Creative UX/UI Designer and Illustrator. I have worked with some clients in lots of different fields, and my design style is quite versatile.

Achievements/Tasks

- Work with clients to make websites.
- Made an e-commerce website for a Client on WordPress.
Here's the link: <https://beddingdesire.ca/>
- I'm very responsive and detail-oriented.

UI/UX Designer Angel Earth Corp.

05/2023 - 07/2023

Edmonton, Alberta

Angel-Earth Corporation is dedicated to reshaping the business landscape in the digital age through its services.

Tasks

- Create wireframes, high-fidelity mock-ups, prototypes, and interactive design solutions that translate user needs into elegant and functional interfaces.
- Using Figma and working collaboratively with other team members, I designed their mobile app and website. My main idea behind was to make it user-friendly for every age group.
- Collaborate with developers to ensure seamless implementation of designs. And did prototyping as well & was given weekly sprints to finish the tasks on time

PROJECTS

Made an e-commerce website for a Client on WordPress.

- Here's the link: <https://beddingdesire.ca/>

Created a Dog-Care Registration form using CSS.

- Show error messages when putting wrong information when left empty.
- Using web Practices and perfect lighthouse score.
- Here's the link: <https://dogcare-registration-form.netlify.app/>

Created a validation form using PHP.

- The contact form shows error messages when the wrong information is entered. Used PHP to make a validation form.
- Also Saves information in the admin panel and redirects when submitted info is right.

Successfully Designed a UX Web Dashboard using Tailwind.

- This web application allows people to sign in and manage team-based projects(much like <https://basecamp.com/>)
- It's just a prototype with UI/UX Design and visually showing how the functionality would work, when the project is built.
- Here's the link: <https://web-dashboard-tailwind.netlify.app/>

Designed a website for selling chocolates.

- Created a coded website using HTML, CSS and JS. Here's the website link: <https://chocolates-business-site.netlify.app/>

Made a responsive cultivation website using Bootstrap.

- Created a responsive website using optimized images and excellent lighthouse score.
- Here's the link: <https://crops-cultivation-business.netlify.app/>

VOLUNTEER

NAIT (03/2023 - 04/2023)
